

## Early Childhood and Primary Education

### 1. - WHO WE ARE

We are a group of teachers, educators and parents interested in educating and caring for children through Waldorf Education.

We have created a non-profit association to manage this school based on Waldorf education on Mallorca for Early Childhood and Primary Education, with the goal of offering Secondary Education and with the objective of accompanying children in their complete development as human beings.

Our aim is to generate an educational community where teachers, educators and families work together to develop healthy and enriching educational processes.

This project was born from a vision of community service and with values focused towards the social economy and the common good.
